CHAPTER—II

MANAGEMENT OF MUNICIPAL SOLID WASTE

3. Municipal Solid Waste Management.—The Municipal Council/Nagar Panchayat shall establish an integrated Solid Waste Management (SWM) system with an aim to reduce the amount of waste being disposed, while maximizing resources recovery and efficiency. The preferred waste management system shall focus on the following points, namely.—

- (i) *Reduction and reuse at source.*—The most preferred option for Solid Waste Management shall be prevention of waste generation. It will be helpful in reducing the handling, treatment and disposal costs and specially reduce various environmental impacts such as leachate, air emissions and generation of greenhouse gases.
- (ii) *Waste recycling.*—Recovery of recyclable material resources through a process of segregation, collection and re-processing to create new products shall be the next preferred alternative.
- (iii) *Composting.*—As far as possible the organic fraction of waste shall be composted and used to improve soil health and agricultural production adhering to norms.
- (iv) *Waste-to-Energy.*—Where material recovery from waste is not possible, energy recovery from waste through production of heat, electricity or fuel may be preferred. Bio-methanation, waste incineration, production of Refuse Derived Fuel (RDF) and co-processing of the sorted dry rejects from municipal solid waste are to be commonly adopted “Waste to Energy” technologies.
- (v) *Waste disposal.*—Remaining residual waste, which ideally comprises of inerts, shall be disposed in sanitary landfills constructed in accordance with stipulations of the Solid Waste Management Rules, 2016.
- (vi) The Integrated Solid Waste Management system shall be environment friendly. Waste minimization, waste recycling, waste-to-energy strategies and landfill gas capture and use which are promoted in the Solid Waste Management Rules, 2016 shall be adopted for reduction of greenhouse gases.

CHAPTER—III

MUNICIPAL SOLID WASTE COLLECTION & TRANSPORTATION

4. Segregation & Primary Storage of Municipal Solid waste.—(a) It will be prime responsibility of every waste generator/citizen to segregate the waste generated by them in three separate streams namely bio-degradable, non-biodegradable and domestic hazardous wastes in suitable covered bins and handover segregated wastes to authorised waste pickers or waste collectors designated by ULBs or Agency Hired by ULBs once a day or at the frequency as decided by respective local body on the timing fixed by the service provider. Every citizen has to pay a fixed monthly rental for the services of door to door garbage collection.

(b) Waste generators shall be encouraged to segregate waste and store at source in three separate colour bins *i.e.* green-for biodegradable waste, blue-for non-biodegradable, red-for domestic hazardous waste.

(c) All institutions with more than 5,000 sqm. area shall, within one year from the date of notification of these bye laws and in partnership with the Municipal Council/Nagar Panchayat, ensure segregation of waste at source by the generators, facilitate collection of segregated waste in separate streams, handover recyclable material to either the authorised waste pickers or the authorised recyclers. The bio-degradable waste shall be processed, treated and disposed off through composting or bio-methanation within the premises as far as possible. The residual waste shall be given to the waste collectors or agency as directed by the Municipal Council/Nagar Panchayat.

(d) No person shall organise an event or gathering of more than one hundred persons at any unlicensed place without intimating the Municipal Council/Nagar Panchayat, at least three working days in advance and such person or the organiser of such event shall ensure segregation of waste at source and handing over of segregated waste to waste collector or agency as specified by the Municipal Council/Nagar Panchayat.

(e) Used sanitary waste are to be securely wrapped as and when generated in the pouches provided by the manufacturers or brand owners of these products or in a newspaper or suitable biodegradable wrapping material and place the same in the bin meant for non-biodegradable waste or dry waste.

(f) Every street vendor shall keep suitable containers for storage of waste generated during the course of his activity such as food waste, disposable plates, cups, cans, wrappers, coconut shells, leftover food, vegetables, fruits, *etc.*, and shall deposit such waste at waste storage depot or container or vehicle as notified by the Municipality.

(g) Store separately construction and demolition waste, as and when generated, in his own premises and shall dispose off as per the Construction and Demolition Waste Management Rules, 2016.

(h) Bulk waste generators of garden and horticulture waste like park, stadium *etc.* shall store separately in their premises and dispose of the same as may be prescribed by the Municipal Council /Nagar Panchayat from time to time.

(i) No untreated bio-medical waste, e-waste, hazardous chemicals and industrial waste shall be mixed with municipal solid waste and such waste shall follow the rules specifically separately specified for the purpose.

(j) Every waste generator has to ensure that there is no practice of burning or burying the solid waste generated by him, throwing on streets/open public spaces outside his premises or in the drain or water bodies.

(k) Littering of waste on streets/open space/water bodies /drain shall be fined on the spot. On iterative they will be punishable and can subjected to court as per rule.

37.	Scrap Dealers	100
38.	Street Vendor	50
39.	Any other establishment(s) not mentioned above	To be decided by ULB

Note.—User charge as prescribed above can be revised by the ULB time to time keeping in view the polluter pay principal to meet the operation and maintenance cost of the services under Solid waste management.

(k) User charge mentioned above for door to door services needs to be collected from each and every household & other establishment of all the wards in the municipal boundaries of the ULBs. Users charge decided above, contact person's name & number needs to be conveyed to general public through different media such as display on the vehicles used for these services, hoardings, pamphlets etc. Also, awareness generation campaigns need to be organised.

(l) No manual loading or unloading of waste in compactor should be practised with open hand or without safety measure as per the Solid Waste Management Rules, 2016.

6. Secondary Storage of Municipal Solid Waste.—Municipality by their own or with help of Agency hired needs to develop storage bins/secondary storage points for the collection of waste generated in the town, they will also be responsible to monitor the condition of these bins so that no filthy or unhygienic condition develops around. While establishing or monitoring secondary storage bins following precaution needs to be taken care.—

- (a) Storage/Secondary storage bins should be designed and develop on the basis of the quantity of waste generated, density of population in the notified municipal boundaries. Minimum distance between two bins should be 500 meters and within radius of 1 Km. maximum numbers of bins should limited upto to 5. Established bins must be covered with movable lid and must be approachable/connected with metallic or non-metallic road.
- (b) Bins provided by Municipal Council/Nagar Panchayat or any hired agency should be designed in such a manner so that waste disposed in does not get scattered in open atmosphere and it should be artistic in nature so that it motivates people to dispose their waste in the bins not in open.
- (c) Bins placed at designated place by Municipal Council/Nagar Panchayat or any hired agency should motivate people to practice waste segregation and it should be placed as per Solid Waste Management Rule, 2016 having colour coding for different types of waste.

-  Green.—Biodegradable waste (Food Waste, garden waste)
-  Blue.—Non-Biodegradable waste
-  Red.—Hazardous or toxics waste

(d) Well-designed Vehicle like auto Tipper/Compactor should be used for the purpose of transportation of waste and evacuating the bins.

(e) All the cooperative society, residential welfare association/society, institutional organisation will be responsible to place suitable quantity of bins approved by the Municipal Council/Nagar Panchayat on the fixed place in their compound so that waste generated from there can be stored properly and collected from time to time by the municipal vehicle. User charge for these services fixed by the ULBs should be collected by the authorised person of local body.

(f) It will be prime responsibility of all the waste generators/citizens to store and sell/handover the recyclable waste to the Ragpickers/Kabadiwala or person/organisation designated by the Municipal Council/Nagar Panchayat. They have to ensure that no such waste is being disposed on the road/drain/secondary storage bins/ open space.

(g) Door to door garbage collection, secondary storage bins, collection & transportation, processing of waste and disposal of waste in sanitary land fill site, all these services will be provided by Municipal Council/Nagar Panchayat or any hired agency. ULBs will charge user fee for all these services and violator will be fined on the spot or punished and can be subjected to court as per rule.

(h) Waste from the slaughter house, fish market, fruit & vegetable market is biodegradable in nature, so proper storage facility should be designed so that no health hazard spreads from this & facility for composting should be developed to make use of such waste in generating organic manure from it. For ensuring proper disposal of such waste every generator have to ensure best storage facility and segregation of such waste at source and door to door collection should be

practiced by ULBs to collect 100% of such waste and take to processing plant. On Violation, waste generator should be fined on the spot or punished and can be subjected to court as per rule.

(i) Municipal Council/Nagar Panchayat have to establish waste deposition centres for domestic hazardous waste and give direction for waste generators to deposit domestic hazardous wastes at this centre for its safe disposal. Such facility shall be established in a city or town in a manner that one centre is set up for the area of twenty square kilometres or part thereof and notify the timings of receiving domestic hazardous waste at such centres.

(j) Bio medical & industrial waste should not be mixed with municipal waste and such waste should be stored and disposed separately as per the rules applicable. For the disposal of bio-medical waste common Biomedical Waste treatment facility (CBMWTF) should be developed in each ULB either separately or on the cluster basis. By paying the fixed user fee such waste can be easily disposed off.

(k) Construction and demolition waste should be stored separately as and when generated, in his/her own premises and shall be disposed off as per the Construction and Demolition Waste Management Rules, 2016. ULBs should fix user charge for transportation and disposal of C&D waste and generator should dispose this waste by paying the charge as per the rules and at the designated place. Disposing of such waste in open space, road side, common place will be treated as illegal and fined as per the rules.

(l) Gardening/Horticultural waste should also be stored separately at source. ULBs should fix a day or two in week and some place where generator should give their waste and from there it should be transported to disposal site.

(m) Dry leaves, plastic and other such waste should not be burnt in open, doing such activity will be treated as illegal and punishable, violator should be fined as per the rules.

(n) Stray animal should be restricted from roaming in and around the waste disposal site & secondary storage bins or any public place in the town.

(o) Every citizen, institutions, office buildings, commercial complexes has to ensure that there is no open discharge of grey water, black water or any other such polluted water in drain, open space or on road which can spread health issues, doing such activity will be treated as illegal and punishable as per the rules.

(p) No person should dispose dead animal or any such material in open space, road side, community park or any other place which can spread pollution and health issues, doing such activity will be treated as illegal and punishable as per the rules.

(q) Municipal Council/Nagar Panchayat have to set up covered secondary storage facility for temporary storage of street sweepings and silt removed from surface drains in cases where direct collection of such waste into transportation vehicle is not convenient. Waste so collected shall be collected and disposed of at regular intervals as decided by the local body.

(r) Municipal Council/Nagar Panchayat can develop bins free solid waste management facility but for this 100% waste collection from the door step of the generator should be ensured.

7. Secondary Collection & Transportation of Municipal Solid Waste.—(a) Each storage bins/secondary storage bins should be attended daily by the help of auto tipper, tractor, compactor *etc.*

(b) Closed vehicle should be used for the transportation of waste. To reduce the frequency of loading and unloading of waste compactor should be used.

(c) Municipal Council/Nagar Panchayat will have to ensure safe storage and transportation of the domestic hazardous waste to the hazardous waste disposal facility.

(d) Transport segregated bio-degradable waste to the processing facilities like compost plant, bio-methanation plant or any such facility. Preference shall be given for onsite processing of such waste.

(e) Transport non-bio-degradable waste to the respective processing facility or material recovery facilities or secondary storage facility. Ensure transportation of construction and demolition waste as per the provisions of the Construction and Demolition Waste Management Rules, 2016.

CHAPTER—IV

MUNICIPAL SOLID WASTE PROCESSING & DISPOSAL

8. Waste Processing Plant.—Municipal Council/Nagar Panchayat with help of State Pollution Control Board approval needs to develop solid waste management/processing plant to make use of daily generated biodegradable waste so that it can reduce the quantity of waste being disposed at the sanitary land fill site.—

- (a) Municipal Council/Nagar Panchayat have to collect waste from vegetable, fruit, flower, meat, poultry and fish market on day to day basis and promote setting up of decentralised compost plant or bio-methanation plant at suitable locations in the markets or in the vicinity of markets ensuring hygienic conditions.
- (b) Involve communities in waste management and promotion of home composting, bio-gas generation, decentralised processing of waste at community level subject to control of odour and maintenance of hygienic conditions around the facility.
- (c) For processing of biodegradable waste Municipal Council/Nagar Panchayat have to establish waste processing plant such as composting plant–windrow compost plant, vermicomposting plant, waste to energy or any other such technology by their own or with help of any other licensed company/firm/organisation on Build–operate-transfer (BOT)/object oriented (OO) method.
- (d) For processing of mixed recyclable waste Municipal Council/Nagar Panchayat have to establish recycling unit such as incineration, RDF Plant or other such recycling technology by their own or with help of any other licensed company/firm /organisation on Build–operate-transfer (BOT)/object oriented (OO) method.
- (e) Municipality may also send the non-biodegradable/dry waste as RDF to nearby cement factories for co-processing.

9. Waste Disposal.—(a) Municipal Council/Nagar Panchayat have to stop land filling or dumping of mixed waste soon after the timeline for setting up and operationalisation of sanitary landfill is over.

(b) Municipal Council/Nagar Panchayat have to allow only the non-usable, non-recyclable, non-biodegradable, non-combustible and non-reactive inert waste and pre-processing rejects and residues from waste processing facilities to go to sanitary landfill.

(c) Sites shall meet the specifications as given in Schedule-I of Solid Waste Management Rules, 2016, however, every effort shall be made to recycle or reuse the rejects to achieve the desired objective of zero waste going to landfill.

(d) Municipal Council/Nagar Panchayat have to investigate and analyse all old open dumpsites and existing operational dumpsites for their potential of biomining and bio-remediation and where so ever feasible, take necessary actions to bio-mine or bio-remediate the sites.

(e) Municipal Council/Nagar Panchayat have to ensure that in absence of the potential of bio-mining and bio-remediation of dumpsite, it shall be scientifically capped as per landfill capping norms to prevent further damage to the environment.

CHAPTER—V
